\$100,000* LAND TRUST ENDOWMENT IN OUR SIGHTS!

What you do today is for our children and grand children!

The purpose of the fund is to provide the Cumberland Land Trust with a protected growth fund that will provide annual income with a dedicated focus on future land acquisitions and stewardship of all our properties in perpetuity.

This relatively new fund is for you and me today to lay the foundation for future leaders of the Land Trust. Our current volunteer leadership knows the importance of protecting a balanced percentage of our landscape for the health and welfare of the community.

The endowment protects your gifts in principle to generate both current income and to a much greater degree, future income for generations. Yes, your gift and mine will live in perpetuity for future land acquisitions and stewardship. No doubt about it!

Past large land acquisitions by the Trust have relied on grant monies from state and local governments which have recently become limited.

The good news is that our organization began planning four years ago looking at our local community to establish our own source of funds beyond land grants or taxpayer dollars. Of the 45 land trusts in Rhode Island's 39 communities, CLT is among a handful to have an endowment program plan for the future.

Membership and annual fundraising donations and gifts are important for the here and now. Each dollar you donate is allocated for land acquisition, stewardship and operations. We encourage our members and donors to maintain annual membership.

Thank you for your past and future support!
